IMPLEMENTATION GUIDE

Secure Enterprise AI Agents Using Microsoft Project Perception

A practical guide for IT administrators

What You Need

- Global administrator or security administrator role
- Active Microsoft Entra ID tenant
- Deployed enterprise AI agents

STEP 1

Access the Security Portal

Open the Microsoft Purview compliance portal

Navigate to the artificial intelligence governance section

Suneel Kumar

STEP 2

Create a New Guardrail Policy

Select the option to add a new security policy

Define the scope for your enterprise AI agents

Suneel Kumar

STEP 3

Configure Data Loss Prevention Rules

- Enable filters to block sensitive enterprise information
- Set thresholds for data sharing limits

Suneel Kumar

STEP 4

Set Up Real Time Monitoring

- Turn on agent activity audit logs
- Configure alerts for policy violations

Verify It Worked

Check the compliance dashboard for active policy status

Confirm that test queries trigger the new guardrails

Common Mistakes

Applying overly broad policies that block legitimate work

Failing to review audit logs regularly
