STEP-BY-STEP GUIDE

Speed Up Windows Hello PIN Sign-In Using Group Policy

A practical guide for IT administrators

Suneel Kumar

Prerequisites

- Active Directory domain environment
- Group Policy Management Console access
- Windows 10 or 11 domain joined devices

Suneel Kumar

STEP 1

Open Group Policy Management

Press Windows key and type gpmc.msc

Navigate to your target domain or organizational unit

Create a new Group Policy Object and link it

Suneel Kumar

STEP 2

Locate PIN Complexity Settings

Go to Computer Configuration, Policies, Administrative Templates

Open System and select Windows Hello for Business

Find the policy settings related to PIN complexity

Suneel Kumar

STEP 3

Configure PIN Requirements

- Enable the policy to use convenience PIN sign-in
- Set minimum and maximum PIN length requirements
- Configure expiration and history settings as needed

Verify It Worked

Run gpupdate /force on a test machine

Open Command Prompt and run gpresult /r

Confirm the policy is applied under computer settings
